Certificates

UI/UX Designing

Avodha EduTech - Completed a 6-month certification in UI/UX Design using Figma.

Software Programming

DB Tech (Don Bosco Tech Society) - Completed a Software Programmer Trainee program covering programming fundamentals, problem-solving, algorithms, flowcharts, and software development concepts.

Technical Skills

Programming Languages

JavaScript (ES6+), TypeScript (Basic), Java (Basic), C#, C, HTML5, CSS3

Backend

Node.js, Express.js, REST API, JWT Authentication, bcrypt, Multer, Cloudinary, Socket.IO  (Basic)

Tools

Git, GitHub, Postman, VS Code, Vercel, Render, Figma, npm

CMS

WordPress, Elementor, Yoast SEO, Google Site Kit

Frontend

React.js, Next.js, Tailwind CSS, Bootstrap, Material UI, Redux Toolkit, Context API, React Router

Database

MongoDB, Mongoose, MySQL, Firebase, SQL Server

Concepts

OOP, MVC Architecture, CRUD Operations, API Integration, Authentication & Authorization, Responsive Design, Agile, Git Workflow

Projects

Learning Management System (LMS) Platform , *NRET LMS Website*

- Designed and developed a full-stack LMS platform using the MERN Stack (MongoDB, Express.js, React.js, Node.js).
- Built secure authentication, course management, and student enrollment functionalities for efficient learning management.
- Developed RESTful APIs and integrated frontend and backend systems for seamless data handling and user interactions.
- Created a responsive and user-friendly interface using React.js and Tailwind CSS, ensuring accessibility across devices.
- Implemented scalable architecture, performance optimizations, and reusable components to enhance maintainability and user experience.

Randall's Harvest , *E-commerce website*

- Developed a fully functional eCommerce frontend using React.js with dynamic product listings and user-friendly UI
- Built reusable components using React Hooks and component-based architecture, improving scalability and maintainability
- Integrated backend APIs using Axios / Fetch for real-time product data and user interactions
- Implemented features like product filtering, cart management, and responsive design for seamless user experience
- Optimized frontend performance using lazy loading and efficient state management
- Designed responsive layouts ensuring compatibility across devices and screen sizes
- Improved UI performance and reduced load time by ~20%

Voice-Based Personal Diary Web Application, *Personal Diary*

- Designed and developed a full-stack personal diary application using the MERN Stack (MongoDB, Express.js, React.js, Node.js).
- Implemented secure user authentication and authorization with login and registration functionality.
- Developed features for creating and managing diary entries using text, voice recordings, and image uploads.
- Built RESTful APIs and integrated the frontend with the backend for seamless data management and user interactions.
- Created a responsive and user-friendly interface using React.js and Tailwind CSS, with a timeline-based system for organizing entries.
